+ Wiki:

Developer

Full stack, Ruby on Rails developer (12+ years experience) with other complimentary design and technology skills.

Why me?

My best asset is my **interest**. I keep up with web development trends (both front and back) because I love it.

- + I seek **value** - "how is this technology going to help me create value for myself and others?"
- + **Finding** the right tool for the job used to be the hardest part. Now, **choosing**, the right tool is hardest because of paradox of choice.
- + I've got 20 years of experience choosing and implementing the right tools for the job.

May 1997

Education

- + **Bachelor of Business Administration**
- + *Information Systems*
- + **UTSA**, San Antonio, Texas

Skills

Server

- + Rails
- + Many ruby gems Gemfile
- + Mysql / Postgres
- + Managed production servers on Digital Ocean and Linode for more than 10 years
 - + Ubuntu
 - + Passenger
 - + Nginx
 - + SSH / Keys
 - + Capistrano
 - + SSL certs

Client

- + HTML
- + CSS
 - + Bootstrap
 - + Grid / Flex
- + Javascript
 - + jQuery
 - + jQuery Mobile
 - + Vue
 - + Svelte
- + Static site generators
 - + Middleman
 - + Vue Press

Experience

Jan 2007 to Present

MBLZ

- + Full stack development of CRM for small business.
- + Manages customer's clients, phones, invoices and more
 - + Rails (started with 2, currently on 4+)
 - + Nginx, Passenger, Mysql
 - + Twilio
 - + Scriptable phone number
 - + Call Routing
 - + JQuery Mobile
 - + UI / Javascript
- + I've worked for MBLZ on a project basis over the last few years.
 - + **Some of the projects include:**
 - + Added product invoices and inventory
 - + Updating all sites to use SSL (Let's Encrypt)
 - + Moved the CMS portion out of Rails and into a static site generator
 - + Multi-site Middleman - all the sites use one instance, each containing their own data and content - making maintenance (including adding sites) very efficient, performant and cost effective
 - + Bootstrap (3&4 - the upgrade to 4 was a breeze)

2010-2015

Rackspace

Senior developer working on internal apps that managed contracts.

- + Using their API, interfaced with Salesforce
- + Encrypted documents at rest
- + Implemented workflows that streamlined the sales/contract process

Before 2010

Others

- + **Navy** (3 years). Honorably discharged. Attained rank of E6 in short enlistment.
 - + Worked on the flight deck of an air craft carrier (Saratoga)

+ Visited the Mediterranean

+ **USAA**

+ Tech lead

+ Intranet apps

+ ASP - Jscript *on the server*
